Single Steps Learning

Designing for Learning: A Focus on Problem-Based Task Design

Stirling and Clackmannanshire

'Designing for Learning: A Focus on Problem-Based Task Design' is a 'bespoke' 1-day event, aimed at participants who have previously completed DfL Step 1 and 2.

The training focuses specifically on honing the design of Problem-Based Tasks and structuring progression.

Participants will have the opportunity to:

- refresh prior knowledge and learning from Step 1 and 2
- engage in professional reading and dialogue
- reflect on the impact of problem-based tasks in their particular setting
- explore the purposeful placement of problem-based tasks within curriculum design
- design problem-based tasks specific to their school/setting

In order to gain the most from the day, participants are invited to bring along an example(s) of a problem-based task from their setting/class/school. However, this is **not** a pre-requisite for attendance.

Date of Event: Friday 27th March 2015

Number of Participants: Up to 25
